Announcement

Berjayapak Sdn. Bhd. is now an officially licensed producer and repairer of EPAL Euro pallets (800 mm × 1200 mm) and is proud to be currently the only company in Malaysia licensed by EPAL to both manufacture and repair EPAL pallets.

EPAL Euro Pallet

EPAL Euro pallet (800 mm × 1200 mm) is one of the most widely used pallet standards in the world. It is designed for compatibility with automated warehouses, conveyor systems, and high-bay storage systems.

EPAL pallets are produced in accordance with EPAL Technical Regulations and are subject to strict quality control as well as regular independent external audits to ensure consistent compliance with EPAL standards worldwide.

Sustainable Pallet Solutions

EPAL pallets are built to be repaired, reused, and circulated across global supply chains, making them one of the most sustainable pallet systems in the world.

To support this circular logistics model, Berjayapak operates an EPAL pallet collection point at our Sungai Bakap¹ facility.

Customers can return used EPAL pallets for inspection and buyback, helping extend pallet life while reducing environmental impact.

For larger quantities, we also offer pickup services (minimum 50 pallets).

EPAL EURO PALLET

800 mm X 1200 mm

BERJAYAPAK
We move what matters

Specifications¹

Material: 11 boards of quality timber, 9 compressed wood blocks.
Produced according to EPAL Technical Regulations.

Length 800 mm
Width 1,200 mm
Height 144 mm
Weight Approx. 25 kg
Safe working load 1,500 kg

When stacking laden pallets on a solid, even surface, the bottommost pallet must not exceed a load of max. 4,000 kg.

Designed for 4-way handling and suitable for use in automated warehouses, conveyor systems, and high-bay storage environments.

Quality Control

EPAL Euro pallets are heat treated to ISPM 15 standards, ensuring pest-free, globally compliant transport.

EPAL ensures globally consistent pallet quality through over 25,000 annual independent inspections by Bureau Veritas and CCIC.

Markings

'EPAL in oval' shaped logo are marked on the left and right hand corner blocks.

IPPC and HT markings are in accordance with ISPM 15 and applicable national regulations. Includes EPAL identification bearing Berjayapak's license number and date of production on the middle block.

EPAL control staple on only one of the middle blocks.

Repair

Used EPAL Euro pallets that meet repair standards are cost-effectively restored. Each repaired pallet is marked on the middle block with an EPAL repair nail, bearing the 'EPAL in oval' logo and Berjayapak's EPAL-issued license number, ensuring verified, high-quality repairs.

¹ EPAL Technical Regulations - 5th edition January 2023

EPAL and 'EPAL in oval' mark are registered trademarks of the European Pallet Association e.V. Berjayapak logo is a registered trademark of Berjayapak Sdn.Bhd.
